Dairy Product Processing Sites in Minnesota

Map produced by: Minnesota Department of Agriculture
Data Source: Minnesota Department of Agriculture (2014)

Dairy Products

- ▲ Butter, Cheese, or Ice Cream
- • Farmstead Cheese*
- + Bottled Milk

*Note: Minnesota 'farmstead cheese' means cheese manufactured within the state of MN on the same farm where the milk is produced and used in the manufacture. This provides an opportunity for the farmer to add value to milk produced on the farm and to create a more local consumption market and product identity.
